

MuleChat User Agreement Form

Please take your time and study the following information carefully. Then print your name clearly and sign and date this form confirming that you understand the following points about using generative AI models.

- i. All of your prompts and responses are archived by MuleChat for training purposes and to provide a backup of work done in the AI Laboratory.
- ii. Never enter personal or confidential information about yourself or anyone else when using any of the generative AI models in MuleChat.
- iii. All generative AI models are prone to fabrications in their responses. Be prepared to fact check the results you get.
- iv. Generative AI models are trained on a variety of social media and internet content that is uncensored and includes the opinions and imaginations of individuals from a wide range of backgrounds and perspectives. Some of the results you get might not only be inaccurate, but may be offensive. What you experience with MuleChat should not be construed in any way as representing the official views, opinions, or advice of the faculty, staff, or students at Colby College.
- v. MuleChat is designed for educational outreach, teaching pedagogy, and/or research purposes consistent with the academic mission of Colby College.
- vi. For students: Know your professor's policy on the use of generative AI for any course work or research projects that you bring to MuleChat. If you use a generative AI model for an assignment, let your instructor know either by noting it with the work you turn in or in a conversation with them.
- vii. MuleChat accounts may not be shared or used outside of the AI Lab without written consent of the staff at DavisAI.
- viii. If you find that you need additional opportunities for using MuleChat, talk to your tutor or the DavisAI staff about available options for further work.
