| Early September                          | Kale   | Leaf Lettuce   | Green Beans  | Cucumbers                              | Summer Squash         | Zucchini  | Tomatoes                               | Peppers                       | Eggplant             | Onions   | Leeks  | Parsley   | Basil                            | Brussels Sprouts   | Ornamental Gouards                          | Ornamental Corn                   | Pumpkins   | Sunflowers |
| Mid-September                            | Kale   | Leaf Lettuce   | Green Beans  | Onions                                 | Leeks                 | Parsley   | Basil                                  | Ornamental Gouards            | Ornamental Corn      | Pumpkins                                       |  |   |                                  |  |   |                                   |  |            |
| Late September                           | Carrots  | Turnips  | Beets  | Ornamental Gouards                     | Ornamental Corn       | Pumpkins  |  |                               |                      |  |  |   |                                  |  |   |                                   |  |            |
| October                                  | Winter squashes  |  |  |  |                       |   |  |                               |                      |  |  |   |                                  |  |   |                                   |  |            |
| November                                 |  |  |  |  |                       |   |  |                               |                      |  |  |   |                                  |  |   |                                   |  |            |
| ESTIMATED TOTAL POUNDAGE OVER THE SEASON |  |  |  |  |                       |   |  |                               |                      |  |  |   |                                  |  |   |                                   |  |            |
| ESTIMATED TOTAL POUNDAGE OVER THE SEASON |  |  |  |  |                       |   |  |                               |                      |  |  |   |                                  |  |   |                                   |  |            |
| Crop                                     | Kale   | Summer Squash  | Zucchini   | Peppers                                | Tomatoes              | Green Beans   | Gouards                                | Pumpkins                      | Raspberries          | Broccoli                                       | Cauliflower  | Leaf Lettuce  | Basil                            | Parsley  | Carrots                                     | Cabbage                           | Not included in this list: Sunflowers, brussels sprouts, ornamental corn, leeks, onions, eggplants |            |
| Estimated poundage                       | 100  | 550  | 400  | 50                                     | 300                   | 50  | 300                                    | 172                           | 20                   | 50   | 50   | 40  | 5                                | 3  | 10  | 40 pounds                         |  |            |
| Notes                                    | (We had two rows last year and had 80 pounds, however, we planted the kale earlier this year, so more harvest time will produce more poundage) | (we had 4 rows and had about 750 pounds last year, this year we have three rows) | Had about 600 pounds last year with three rows, this year we have two rows | Similar amount of peppers as last year | Similar to last year. | Had two rows last year and produced 100 pounds, have one row this year. | Similar amount of gouards to last year | Similar poundage to last year | similar to last year | Much more than the 1/3 of a row than last year | Similar in amount and weight to broccoli                                 | Had about a third of a row last year, and had 3.5 pounds. We have now 3.5 rows, plus are successively sowing the plants | about twice as much as last year | Twice as much as last year   | two rows this year, more productive as well | Three times as much as last year. |  |            |
